Darknet: Hollywood's War Against the Digital Generation J. D. Lasica

An indispensable primer for those who want to protect their digital rights from the dark forces of big media.

-Kara Swisher, author of aol.com

The first general interest book by a blogger edited collaboratively by his readers, Darknet reveals how Hollywood's fear of digital piracy is leading to escalating clashes between copyright holders and their customers, who love their TiVo digital video recorders, iPod music players, digital televisions, computers, and other cutting-edge devices. Drawing on unprecedented access to entertainment insiders, technology innovators, and digital provocateurs-including some who play on both sides of the war between digital pirates and entertainment conglomerates-the book shows how entertainment companies are threatening the fundamental freedoms of the digital age.

From reader reviews:

Charles Beaudoin:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to understand everything in the world. Each book has different aim or even goal; it means that publication has different type. Some people really feel enjoy to spend their the perfect time to read a book. They may be reading whatever they acquire because their hobby is usually reading a book. What about the person who don't like studying a book? Sometime, particular person feel need book after they found difficult problem as well as exercise. Well, probably you will need this Darknet: Hollywood's War Against the Digital Generation.

Johnnie Lewis:

Book will be written, printed, or outlined for everything. You can recognize everything you want by a reserve. Book has a different type. As we know that book is important issue to bring us around the world. Beside that you can your reading expertise was fluently. A book Darknet: Hollywood's War Against the Digital Generation will make you to become smarter. You can feel considerably more confidence if you can know about almost everything. But some of you think that will open or reading a book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you in search of best book or ideal book with you?

Ella Norman:

Information is provisions for people to get better life, information presently can get by anyone with everywhere. The information can be a knowledge or any news even restricted. What people must be consider any time those information which is inside the former life are hard to be find than now is taking seriously which one works to believe or which one the actual resource are convinced. If you find the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Darknet: Hollywood's War Against the Digital Generation as your daily resource information.

Keith Robertson:

As a student exactly feel bored to help reading. If their teacher inquired them to go to the library in order to make summary for some guide, they are complained. Just little students that has reading's spirit or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Darknet: Hollywood's War Against the Digital Generation can make you truly feel more interested to read.
