Green City: How One Community Survived a Tornado and Rebuilt for a Sustainable Future Allan Drummond

In 2007, a tornado destroyed Greensburg, Kansas, and the residents were at a loss as to what to do next--they didn't want to rebuild if their small town would just be destroyed in another storm. So they decided they wouldn't just rebuild the same old thing; this time, they would build a town that could not only survive another storm, but one that was built in an environmentally sustainable way. Told from the point of view of a child whose family rebuilt after the storm, this companion to *Energy Island* is the inspiring story of the difference one community can make--and it includes plenty of rebuilding scenes and details for construction lovers, too!
