This is NOT a School Approved Sex education book. If you are a teenage person, this is the book your friends will most want to borrow. There is (sadly) a good chance your friend's mother may take it away from her, so be careful about to whom you loan it. YOU should probably show it to your mother (but read it first, just in case SHE freaks out about it and takes it away from you). Teens and parents desperately need to have frank open discussions with one another, and it isn't happening, that's why the author wrote this book. The author's job, his ability to make a living and any place in "respectable" society would probably be in jeopardy if it were to be discovered he wrote it. That's why is just says "Doc" or "Anonymous" or "Anonymously" on the cover. Don't miss the "resource" section and watch for a sequel if this book sells well.
