While no book can replace a live model, this photographic guide to the human form provides a diverse selection of figures for those who do not have access to live models. Posed in a variety of classical and modern modes, the models are set in a clear, clean environment that is void of distractions and enhances the figure. All of the high-resolution photographs were painstakingly edited and adjusted to yield all the nuances of the figures. The companion disc contains 24 photographs per pose that, in totality, comprises a full 360 degree view. Each angle of every pose can be enlarged, enabling artists to zoom in on specific body parts to discover their intricate detail or project the photos to life-like proportions. The disc also offers the flexibility of numerous viewing options—on a computer screen, printed out, projected for a group, or via a high-definition television when connected through a computer.
