Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) Fadi P. Deek, James A. M. McHugh

Computer-Supported Collaboration with Applications to Software Development reviews the theory of collaborative groups and the factors that affect collaboration, particularly collaborative software development. The influences considered derive from diverse sources: social and cognitive psychology, media characteristics, the problem-solving behavior of groups, process management, group information processing, and organizational effects. It also surveys empirical studies of computer-supported problem solving, especially for software development. The concluding chapter describes a collaborative model for program development.

Computer-Supported Collaboration with Applications to Software Development is designed for an academic and professional market in software development, professionals and researchers in the areas of software engineering, collaborative development, management information systems, problem solving, cognitive and social psychology. This book also meets the needs of graduate-level students in computer science and information systems.

From reader reviews:

Pamela Edmonds:

Book is usually written, printed, or created for everything. You can learn everything you want by a publication. Book has a different type. As we know that book is important thing to bring us around the world. Next to that you can your reading talent was fluently. A book Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) will make you to be smarter. You can feel far more confidence if you can know about every thing. But some of you think which open or reading a book make you bored. It is not make you fun. Why they are often thought like that? Have you trying to find best book or acceptable book with you?

Ida Johnson:

Are you kind of busy person, only have 10 or perhaps 15 minute in your time to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are having problem with the book in comparison with can satisfy your short space of time to read it because all this time you only find e-book that need more time to be learn. Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) can be your answer since it can be read by you who have those short spare time problems.

Tracy Rendon:

Beside this kind of Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) in your phone, it could give you a way to get closer to the new knowledge or data. The information and the knowledge you may got here is fresh in the oven so don't always be worry if you feel like an previous people live in narrow village. It is good thing to have Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) because this book offers to you personally readable information. Do you sometimes have book but you do not get what it's exactly about. Oh come on, that will not happen if you have this in the hand. The Enjoyable set up here cannot be questionable, including treasuring beautiful island. Use you still want to miss the idea? Find this book and also read it from now!

Beverlee Guthrie:

Don't be worry should you be afraid that this book can filled the space in your house, you can have it in e-book way, more simple and reachable. This particular Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science) can give you a lot of friends because by you looking at this one book you have factor that they don't and make a person more like an interesting person. This specific book can be one of one step for you to get success. This publication offer you information that might be your friend doesn't learn, by knowing more

than different make you to be great folks. So , why hesitate? We need to have Computer-Supported Collaboration: With Applications to Software Development (The Springer International Series in Engineering and Computer Science).
