"I saw one of my friends from high school start launching a new product because I am friends with her, but when I spoke to her, I realized that she had no marketing plan and was fulfilling her orders out of her house. I think part of the problem is that there is not an instruction manual for marketing in the internet age where

we all have smart phones and are constantly checking social media. This book provides a high-level strategy in the form of bullet points that can help a new entrepreneur realize where the holes are in their business plan. Very helpful guide for businesses!" - Chris, *August 2015*
