In **Illuminating Social Life: Classical and Contemporary Theory Revisited, Third Edition** editor Peter Kivisto once again shows today's students how classical and contemporary social theories can be used to make sense of the world they inhabit. Through thirteen essays, the book applies various social theories from the past and the present to select facets of modern life, such as the Internet, the world of work, fast food restaurants, shopping malls, alcohol use, body building, sales and service, and new religious movements. All of the contributors to this collection of essays share a common purpose - to illustrate how different social theories are capable of providing significant understanding that, without theory, would not be grasped.
