The Army of Flanders and the Spanish Road, 1567-1659: The Logistics of Spanish Victory and Defeat in the Low Countries' Wars (Cambridge Studies in Early Modern History) Geoffrey Parker

The publication of *The Army of Flanders and the Spanish Road* in 1972 marked the birth of the "new military history", which emphasized military organization--mobilization, pay, supply, morale and, above all, logistics--rather than military "events" such as sieges and battles. Constantly cited since its first publication in English (with translations into Spanish and Dutch), this revised updated second edition includes new sources and references but otherwise remains faithful to the original edition. First Edition Hb (1972): 0-521-08462-8 First Edition Pb (1975): 0-521-09907-2
