The Microbiology Coloring Book I. Edward Alcamo, Lawrence M. Elson

This is a book about microorganisms: viruses, bacteria, fungi, protozoans, and multicellular parasites. It is a text on microbiology, and covers basic microbiology, medical microbiology, and some industrial microbiology. It is an unusual text because it offers the student an opportunity to learn by coloring illustrations in a planned and meaningful sequence. The coloring approach opens the subject of microorganisms to high school students, yet college and graduate students will also find the content of this text challenging. A great deal of information can be gained from studying and working properly designed illustrations. "A picture is worth a thousand words." The student who colors the plates of this book will find real satisfaction in understanding the subject matter because it can be visualized. When recall of the material is required, the picture, complete with thoughtfully applied colors, quickly comes to mind. This book is a very important way to learn about a broad spectrum of microorganisms and how they interact with humans. Happy Coloring!

From reader reviews:

Kimberly Gonzalez:

Do you have favorite book? Should you have, what is your favorite's book? Publication is very important thing for us to know everything in the world. Each guide has different aim or even goal; it means that e-book has different type. Some people really feel enjoy to spend their a chance to read a book. They are reading whatever they consider because their hobby is reading a book. How about the person who don't like reading a book? Sometime, man or woman feel need book after they found difficult problem as well as exercise. Well, probably you'll have this The Microbiology Coloring Book.

Jennifer Phinney:

Book is to be different for every single grade. Book for children until adult are different content. To be sure that book is very important for all of us. The book The Microbiology Coloring Book had been making you to know about other expertise and of course you can take more information. It is quite advantages for you. The book The Microbiology Coloring Book is not only giving you considerably more new information but also to be your friend when you experience bored. You can spend your current spend time to read your book. Try to make relationship with all the book The Microbiology Coloring Book. You never truly feel lose out for everything in the event you read some books.

Perla Baxter:

As we know that book is very important thing to add our information for everything. By a book we can know everything we wish. A book is a list of written, printed, illustrated or perhaps blank sheet. Every year ended up being exactly added. This publication The Microbiology Coloring Book was filled concerning science. Spend your free time to add your knowledge about your research competence. Some people has various feel when they reading any book. If you know how big selling point of a book, you can feel enjoy to read a reserve. In the modern era like today, many ways to get book that you wanted.

Anna Sanders:

As a college student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or to make summary for some publication, they are complained. Just little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this The Microbiology Coloring Book can make you experience more interested to read.
