This is a sequel to “Fly to the New Planet” and “Adventure to the New Planet”. After FcF discovered the new planet LH and adventured to it, he decided to send robots to construct Planet LH before everything from Earth migrate there. FcF wanted robots instead of human to deal with the dangerous jobs. He formed a company, SDW, with a group of boys. They submitted the proposal to the government and got the contract to build Planet LH. FcF really liked that way of formatting the planet and thought that it would lead to success. FcF and team made that come true! How could they make enough robots for planet construction? How could they make the entire planet operated by only robots? I hope you enjoy the book. -- FanFan Jiang, 2015
