Bioterrorism and Food Safety

Barbara A. Rasco, Gleyne E. Bledsoe

Bioterrorism and Food Safety Barbara A. Rasco, Gleyne E. Bledsoe

Written by specialists in the fields of food bioterrorism and industry preparedness, **Bioterrorism and Food Safety** focuses on developing rational and implementable food security strategies and plans. It integrates food safety issues, technological developments in traceability, and legal analysis of current and pending regulations with good business practices, and then relates these elements to the development of effective and workable food security programs for food businesses.

The text covers the biological and chemical risks associated with the intentional contamination of food and discusses underlying legal issues, regulatory compliance, and cost/benefit analysis. It also provides implementation strategies to reduce food security risks, discusses advances in traceability, and suggests ways to reduce the risk of intentional contamination and improve consumer confidence in the safety of the food supply.

With its clear presentation of current hazards, safety guidelines, and security measures, this comprehensive work introduces practicing professionals throughout the food industry and those charged with the responsibility of terrorism prevention to workable strategies that address safety risks associated with all facets of food production, storage, and delivery.
