US Army Report and Message Formats Department of Defense

FM 101-5-2 is the Army's capstone manual for standardized report and message formats. It provides a standard, readily available reference from which soldiers as well as automation designers can extract report and message templates. FM 101-5-2 is a compendium of formats commonly used by tactical units from small unit to corps and forms the baseline for reporting and communicating as command, control, and communications technology evolves. It allows a common, authoritative understanding of reporting and communicating to exist among all US Army elements. It also relates to, supports, and drives command, control, and communications doctrine and US Army interaction with the joint and multinational communications communities.
